## **CONTENT AND OPERATION**

### **Homestead exemption for surviving spouse of emergency responder**

Continuing law provides a property tax credit for the residence, or "homestead," of certain qualifying individuals. This "homestead exemption" equals the taxes that would be charged on up to \$25,000 of the true value of a home owned by a qualified elderly or disabled homeowner. ("True value" is the appraised fair market value.) The credit essentially exempts \$25,000 of the value of a homestead from taxation. It also

applies to manufactured and mobile homes regardless of whether they are taxed as real property or taxed under the manufactured home tax (except that manufactured and mobile homes are assessed at 40% of cost or market value and are depreciated). A special "enhanced" exemption of \$50,000 is available for homes of military veterans who are totally disabled. The amount of the tax savings for a qualifying homestead depends on the local tax rate: the higher the tax rate, the greater the tax reduction. According to the Department of Taxation, the average annual tax savings is about \$435 for homeowners who are not disabled veterans.

The \$25,000 homestead exemption is available only to homeowners who are 65 years of age or older, permanently and totally disabled, or at least 59 years old and the surviving spouse of an individual who previously received the exemption. Homeowners who would first receive the exemption for tax year 2014 (or tax year 2015 for homeowners who pay the manufactured home tax) must have an Ohio adjusted gross income of \$32,200 or less, as computed for state income tax purposes. (This income limit is increased each year to adjust for inflation.) Homeowners who received the exemption before 2014 are not subject to the income limit, and no income limit applies to the \$50,000 exemption for disabled veterans.

The bill extends the homestead exemption to the surviving spouse of a "public service officer" who has either been killed in the line of duty or died from a fatal injury or illness sustained in the line of duty, including a heart attack. Similar to the homestead exemption for disabled veterans, the credit is equal to the tax on \$50,000 of the true value of a homestead owned and occupied by that surviving spouse, and no income limit applies. For the purpose of the exemption, a public service officer is a paramedic, emergency medical technician (including EMT-basic, EMT-I, and "first responder" classes), a paid or volunteer firefighter, or a police officer, sheriff, deputy sheriff, or other class of peace officer as defined for the purposes of the law governing the authority to arrest or issue citations.<sup>1</sup> The exemption would continue until the surviving spouse dies or remarries, and, like the existing homestead exemption, it is portable among homes so long as it applies to only one home at a time. The exemption is not enhanced if the surviving spouse also qualifies for the exemption as an elderly or disabled individual or a disabled veteran.<sup>2</sup>

### **Application requirements**

Before qualifying for the bill's exemption, a surviving spouse must apply to the county auditor and verify that the public service officer was killed in the line of duty by

providing a letter confirming this from either a state pension fund or the department or agency that the public service officer served when the officer was killed in the line of duty.<sup>3</sup>

### **Reimbursement of local taxing units**

As with the existing homestead exemption, local taxing units would be reimbursed by the state for the reduction in property tax revenue that results from the bill's extended exemption. The reimbursement would be paid from the state General Revenue Fund semiannually.<sup>4</sup>

### **Effective date**

The new homestead exemption authorized by the bill begins to apply in tax year 2018 or, in the case of homes that are subject to the manufactured home tax, in tax year 2019. The difference in application is accounted for by the fact that the manufactured home tax is payable on a current-year basis, whereas the property tax is payable in arrears.<sup>5</sup>
