Office

S.B. 25  
136<sup>th</sup> General Assembly

## Fiscal Note & Local Impact Statement

[Click here for S.B. 25's Bill Analysis](#)

**Version:** As Introduced

**Primary Sponsor:** Sen. Johnson

**Local Impact Statement Procedure Required:** No

Tom Wert, Senior Budget Analyst

### Highlights

- The bill's requirements regarding a minor's use of sun lamp tanning services is unlikely to cause a significant increase in enforcement actions taken by the State Cosmetology and Barber Board against tanning facilities. The fines assessed under the bill and collected by the Board (\$500 for a first and subsequent offenses) would be deposited to the credit of the Occupational Licensing and Regulatory Fund (Fund 4K90).

### Detailed Analysis

The bill modifies the law governing the use of sun lamp tanning services by individuals who are younger than 18 years old and could result in a minimal gain in fine revenue collected by the State Cosmetology and Barber Board. Under current law, tanning facilities may allow individuals who are 16 or 17 years old to use sun lamp tanning services after obtaining consent from a parent or guardian. The bill prohibits all individuals who are under 16 from using sun lamp tanning services and, for individuals that are 16 or 17 years of age, requires a parent or guardian to be present and to sign a parental consent form each time the services are used. Under the bill, violations of these sun lamp tanning services requirements are subject to a fine of \$500 for a first violation and an additional \$500 fine for subsequent violations, as well as other disciplinary actions.

There are few enforcement actions taken against tanning facilities for age restriction violations under current law. When enforcement actions are necessary, they are generally applied for a tanning facility's repeated failure to collect and document parental consent properly. Consequently, the changes under the bill are unlikely to lead to a significant increase in the number of enforcement actions taken by the Board, nor increase the number of fines the Board imposes. Likewise, any gain in fine revenue under the bill is likely to be minimal at most. Fine revenue collected by the Board is deposited to the credit of the Occupational Licensing and Regulatory Fund (Fund 4K90).
