- The Ohio Department of Health may experience a minimal increase in costs to prepare the required influenza vaccine information sheet pertaining to older adults.

Local Fiscal Highlights

- No direct fiscal effect on political subdivisions.
-

Detailed Fiscal Analysis

The bill requires the Ohio Department of Health (ODH) to prepare an influenza vaccine information sheet pertaining to older adults. ODH is also required to periodically review and update the information sheet and make it available on its Internet website in a format suitable for printing. The bill also requires certain facilities, such as nursing homes, to obtain and post the information sheet in a conspicuous location that is accessible to all residents, employees, and visitors, and to replace the sheet with any updated versions each year.

ODH may experience a minimal increase in costs to prepare the required information sheet. There should be no direct fiscal effect on political subdivisions.
