

Ohio Legislative Service Commission

Synopsis of Senate Committee Amendments*

Matthew Magner

Sub. H.B. 158

131st General Assembly
(S. State & Local Government)

Adds a provision specifying that a moderate level of intellectual disability, as it relates to a determination regarding whether an individual is a person with an intellectual disability subject to institutionalization by court order, is indicated in part by a full-scale intelligence quotient (IQ) test score of 55 or below.

Regarding the programs to which a person with an intellectual disability subject to institutionalization by court order may be ordered or referred, substitutes "program that is offered by a county board of developmental disabilities for persons with intellectual disabilities" for "community program for persons with developmental disabilities."

Repeals a provision permitting the disclosure to a mental health facility of certain records that identify a resident or former resident of an institution for persons with intellectual disabilities or that identify a person whose institutionalization is sought if, in the judgment of the managing officer for institution records, disclosure is in the best interest of the person identified.

Replaces references to institutions and facilities for persons with developmental disabilities with references to institutions and facilities for persons with intellectual disabilities.
