H.B. 280
133rd General Assembly

Fiscal Note & Local Impact Statement

[Click here for H.B. 280's Bill Analysis](#)

Version: As Reported by House Transportation and Public Safety

Primary Sponsor: Rep. Boggs

Local Impact Statement Procedure Required: No

Maggie West, Senior Budget Analyst

Highlights

- In the first year of implementing the “St. Charles Preparatory School” license plate, the Bureau of Motor Vehicles (BMV) may minimally: (1) gain \$1,500 in additional fee revenues and (2) incur \$615 in license plate production costs; St. Charles Preparatory School may receive at least \$4,500 in contributions. Beginning in the second year, in order for the special license plate to stay in circulation, the minimal annual figures will be \$250 in BMV fee revenues and \$750 in contributions for St. Charles Preparatory School. The annual production costs for the license plate will total \$4.10 for each new set that is issued.
- An applicant for the special license plate is required to pay \$40 in additional money, consisting of a \$10 BMV administrative fee and a \$30 contribution for St. Charles Preparatory School. The license plate is subject to the minimum registration requirements of 150 applicants for the first year and 25 applicants annually thereafter.
- The actual BMV fee revenue and cost, as well as contributions to St. Charles Preparatory School, depend upon demand for the license plate each year.
- The bill will have no direct fiscal effect on any of the state’s political subdivisions.

Detailed Analysis

“St. Charles Preparatory School” license plate

The bill creates the “St. Charles Preparatory School” license plate that is available to all owners or lessees of vehicles registered in Ohio. As summarized in the table below, a person applying for the plate must pay: (1) a \$10 Bureau of Motor Vehicles (BMV) administrative fee, and (2) a \$30 contribution to St. Charles Preparatory School.

“St. Charles Preparatory School” License Plate			
Special License Plate	BMV Fee	Required Contribution	Contribution Recipient
St. Charles Preparatory School	\$10	\$30	St. Charles Preparatory School

License plate implementation and termination procedures

Under existing law, a special license plate generally is subject to a minimum registration requirement and to related termination and revival procedures. For example, the BMV Registrar is not required to implement any legislation that creates a new license plate until the Registrar receives written statements from at least 150 persons indicating that they intend to apply for and obtain the special license plate (R.C. 4503.78). If, during any calendar year, the total number of new and renewal motor vehicle registrations involving a license plate totals less than 25, the issuance of that license plate may cease as of December 31 of the following year (R.C. 4503.77).

Production costs and administrative fees

The BMV currently produces special license plates via a digital print-on-demand process. The total cost to produce a pair of these plates is \$4.10. Under the bill, a person obtaining a “St. Charles Preparatory School” license plate must pay an administrative fee of \$10, the purpose of which is to compensate the BMV for additional services required in issuing the plate. The administrative fees will be credited to the Public Safety – Highway Purposes Fund (Fund 5TM0), which is used in part to pay the BMV’s expenses related to titling motor vehicles, licensing drivers, and registering motor vehicles.

- Assuming the license plate satisfies the minimum 150-person registration requirement, then, in the first year, the annual production costs for the license plate will total \$615 (150 persons x \$4.10) and the administrative fees collected will total \$1,500 (150 persons x \$10).
- Assuming the license plate, in subsequent years, satisfies the minimum 25-person registration requirement (new and renewals), the administrative fees collected will total \$250 (25 persons x \$10). The annual production costs for the license plate will total \$4.10 for each new set that is issued.

St. Charles Preparatory School

The \$30 contribution paid for the issuance of the “St. Charles Preparatory School” license plate will be credited to the existing License Plate Contribution Fund (Fund 5V10) and then paid to St. Charles Preparatory School located in the municipal corporation of Columbus for the school’s alumni association and the alumni association’s purposes.

- Assuming that the demand satisfies the minimum threshold, then, in its first year, the license plate will generate \$4,500 (150 persons x \$30 contribution) in contributions for St. Charles Preparatory School.

- In each subsequent year, at least 25 persons must purchase the license plate, otherwise it is subject to termination under existing law. Assuming that the demand satisfies the minimum threshold to avoid termination, the plate will generate \$750 (25 persons x \$30 contribution) for St. Charles Preparatory School.
