DETAILED ANALYSIS

Court documents and records

Background

The bill requires the clerk of the court of common pleas to keep records as indicated by the Rules of Superintendence for the Courts of Ohio. The records will be called the appearance docket, trial docket and printed duplicates of the trial docket for the use of the court and its officers, journal, and execution docket.¹

Online availability of general docket

The bill generally requires that not later than 18 months after its effective date, the clerk of court make available online on the clerk of court’s website the “general docket” of the court for remote access and printing by the public of the information in that docket, including

¹ R.C. 2303.12(B).

all individual documents in each “case file,” pertaining to civil cases filed on or after that effective date.² (Terms in quotation marks are defined in “**Definitions.**”)

Exceptions

The bill provides that nothing in the above provision is to be construed as making available online any of the following:³

- Internal documents such as notes, emails, drafts, recommendations, advice, or research of judicial officers and court staff;
- Any document or any information in a case file the public access to which the court has ordered restricted under the Rules of Superintendence for the Courts of Ohio.

The bill also provides that the clerk of court is not required to make available online either of the following:⁴

- The general docket of the division of domestic relations, the juvenile court, or the probate court;
- If the court does not have a division of domestic relations, the general docket in civil cases pertaining to domestic relations.

Record of documents

The bill modifies current law by requiring the clerk to keep a record in book form or permitting the clerk to prepare a record by using any photostatic, photographic, miniature photographic, film, microfilm, or microphotographic process, electrostatic process, perforated tape, magnetic tape, or other electromagnetic means, electronic data processing, machine readable media, graphic or video display, or any combination of them, which correctly and accurately copies or reproduces *every case file* (added by the bill) and other original document, paper, or instrument in writing.

Under current law, the board of county commissioners is required to furnish the clerk of the court of common pleas all blankbooks, including the printed trial dockets, blanks, stationery, and all things necessary for the prompt discharge of the clerk’s duties. Under the bill, the board is required to furnish all things necessary for the prompt discharge of the clerk’s duties.⁵ The bill also removes the requirement that the clerk of the court of common pleas keep at least four books and use materials that comply with the minimum standards prescribed by

the National Bureau of Standards, and instead requires the clerk to keep records as indicated by the Rules of Superintendence for the Courts of Ohio.⁶

Additionally the bill aligns the requirements for recording orders made out of court with the Rules of Superintendence for the Courts of Ohio, where under current law the clerk of the court of common pleas is required to enter out of court orders in the journal of the court in the same manner as orders made in term.⁷ Similarly, the bill requires the clerk of the court of common pleas to maintain all materials as referenced in the Rules of Superintendence for the Courts of Ohio.⁸

Case documents and personal identifiers

Under the bill, when submitting a case document to the court or filing a “case document” with the clerk of court, a party to an action or proceeding must omit “personal identifiers” from the case document pursuant to Rule 45 of the Rule of Superintendence for the Courts of Ohio. The clerk of court is not liable to any party or any person if a case document that is submitted to the court or filed with the clerk of court contains personal identifiers and the clerk posts that case document on its website.⁹ (Terms in quotation marks are defined in “**Definitions.**”)

Pleadings or documents may be filed with the clerk of court either in paper format or in electronic format. Documents created by the clerk of court in the exercise of the clerk’s duties may be created in an electronic format.¹⁰ Pleadings and documents filed in paper format may be converted to an electronic format, which will be considered the official version of the record. Pleadings or documents received or created in electronic format will be considered the official version of the record.¹¹

PIVOT program

The bill allows the Tiffin-Fostoria Municipal Court and the Seneca County Court of Common Pleas to exercise concurrent jurisdiction in operating the Participating in Victory of Transition (PIVOT) drug recovery program indefinitely. Under current law, the concurrent jurisdiction is effective until August 1, 2023, unless renewed or made permanent by the General Assembly prior to that expiration.¹²

Certificate of motor vehicle title changes and notary changes

Notary changes

Generally, under current law, many of the documents related to the transfer of a motor vehicle between two parties requires the documents to be notarized. This is particularly true for the transfer of a motor vehicle between two parties in the course of a casual sale.¹³ The notarization requirements are less clear when a licensed motor vehicle dealer is one of the parties to the transfer.

The bill expressly removes the notary requirements when a licensed motor vehicle dealer is a party to the transfer of a motor vehicle (i.e., either the buyer or the seller) for all of the following documents:

1. The motor vehicle certificate of title;
2. An application for a motor vehicle certificate of title;
3. Assignment of ownership for a motor vehicle;
4. Power of attorney to title a motor vehicle (see “**POA**” below); and
5. Any other document required by the clerk of courts for the titling of a motor vehicle.

A clerk of courts may request a notarized affidavit to make corrections to any of the documents listed above, however, if necessary. In addition to these documents not requiring notarization, the documents also may be signed electronically.¹⁴

POA

As a service to customers, a licensed motor vehicle dealer will often file the motor vehicle certificate of title documents with the clerk of courts. However, in order to do so, the customer must give the dealer a limited power of attorney (POA) to manage any transfer of title and the associated documents and applications. Under current law, instead of signing the POA before a notary, the customer may sign the POA before the dealer, the dealer’s employee, or the dealer’s agent. The dealer, employee, or agent, however, then must swear before a notary that the customer signed the POA in his or her presence. Thus, a notary is still involved in the process.

The bill removes the notary from the process, similar to the other notary changes above. Instead, a person may grant the dealer, employee, or agent a limited POA to make an assignment of a certificate of title and to complete an application for a certificate of title (excluding the federally required odometer acknowledgements) without anyone signing or

¹⁴ R.C. 4505.063.

verifying the signature before a notary. The bill also removes the authorization to witness a signature via audio-visual conference technology, since no witness signature is now required.¹⁵

Application to be a notary public

The bill exempts peace officers from the requirement of obtaining a criminal records check as part of the officer's application to be a notary public. Under current law, only Ohio-licensed attorneys are exempt from this requirement.¹⁶

Notarial certificates and forms of acknowledgments

The bill removes the requirement that the notarial certificate for an acknowledgment or jurat indicate the type of notarization being performed. The bill also removes the requirement that an acknowledgment certificate clearly state that no oath or affirmation was administered to the signer with regard to the notarial act.¹⁷

Under the bill, a new statutory short form of acknowledgment is created for limited liability companies.¹⁸ The bill also changes the form of a jurat to the "name of signer" from "the signature of the person making the jurat."¹⁹

Transfer of vehicles involving a minor

Under current law, unchanged by the bill, a minor cannot sell, dispose of, purchase, or otherwise acquire a motor vehicle without the consent of a parent, guardian, or other person having custody of the minor. The adult must give consent to the transaction through a signed statement on a form (prescribed by the Registrar of Motor Vehicles) that accompanies the application for the certificate of title for the motor vehicle. Also, the adult must sign the form in front of either a clerk or deputy clerk of a courts or a notary.

The bill authorizes the adult to sign the form in the presence of a motor vehicle dealer (or the dealer's designee), if the transaction involves that dealer. If the adult signs before the dealer, the dealer must sign a statement verifying that the dealer used reasonable diligence in ascertaining the age of the minor and the identity of the adult who signed the form (i.e., that the minor did not use an adult friend or other nonauthorized family member to sign). If the adult signs the form in the presence of the dealer, the form does not require notarization or any additional signature of the clerk of courts, a deputy clerk of courts, or a notary.²⁰

The bill creates a similar authorization for off-highway motorcycles and all-purpose vehicles. In the case of these vehicles, a dealer involved in the transaction may submit a signed

affidavit affirming that the dealer used reasonable diligence in ascertaining the age of the minor and the adult who signed the form (including that the adult provided the correct identification). The Registrar must determine what types of identification are acceptable for the adult to show the clerk of court or a dealer.²¹

Nonresident purchaser tax affidavit

The bill authorizes a nonresident consumer that purchases a motor vehicle in Ohio and who intends to (1) immediately remove the motor vehicle from Ohio for use outside of Ohio and (2) title or register the vehicle in another state (if such titling or registration is required) to sign a statement certifying this intent. Under current law, the consumer is required to sign an affidavit. The purpose of the affidavit (under current law) or the statement (under the bill) is to exempt the consumer from the typical sales and use taxes due on the purchase of the motor vehicle. The presumption is that the consumer will pay similar sales and use taxes in the other state. Relatedly, the bill requires the motor vehicle dealer to have the statement (rather than affidavit) signed in duplicate (rather than in triplicate, as under current law) if the statement is nonelectronic (i.e., signed on paper). The consumer may sign the statement once if the consumer signs the statement electronically. The dealer must then submit the statement to the clerk of courts, and the clerk must forward it to the Tax Commissioner.²²

A similar affidavit for a nonresident purchaser exists for the purchase of a watercraft or outboard motor. The bill does not change that affidavit to a statement; however, it does authorize the affidavit to be executed in duplicate, rather than in triplicate, as under current law.²³
