DETAILED ANALYSIS

Plaintiff in asbestos tort case required to file sworn statement

Under the bill, within 30 days of filing any complaint, a plaintiff in any tort action who is alleging an asbestos claim must file a sworn statement signed by the plaintiff or plaintiff's counsel specifying the evidence that provides the basis for each asbestos claim against each defendant in the action. The sworn statement is in addition to the current requirements under Ohio's Asbestos Claims law.¹

* This analysis was prepared before the report of the Senate Insurance Committee appeared in the Senate Journal. Note that the legislative history may be incomplete.

¹ R.C. 2307.931(B).

The sworn statement is required to include all of the following with specificity:²

1. The name, address, date of birth, marital status, occupation, smoking history, current and past worksites, and current and past employers of the exposed person and any person through whom the person was exposed to asbestos;
2. The name, address, and relationship to the exposed person of each person who is knowledgeable regarding the exposed person's exposures to asbestos;
3. The manufacturer and seller of each asbestos or asbestos-containing product and the specific product involved in each exposure including, but not limited to, all brand and trade names of that specific asbestos-containing product, to which the exposed person was exposed or to which the other person was exposed if the exposure was through another person;
4. For each exposure to an asbestos-containing product, each site and specific location at each site, including the address of each site, where the exposed person was exposed or where the other person was exposed if the exposure was through another person;
5. The beginning and ending dates of each exposure, the specific manner of each exposure, the frequency and length of each exposure, and the proximity of the asbestos-containing product or its use to the exposed person and to each person through whom the exposed person was exposed to asbestos;
6. The specific asbestos-related disease that is alleged;
7. Any supporting documentation relating to the required disclosures listed above.

Definition of "each exposure"

The bill defines "each exposure" as every exposure to asbestos or an asbestos-containing product by an exposed person or by a person through whom the exposed person was exposed to asbestos.³

Supplemental information and dismissal of claim

The plaintiff must continue to supplement the information provided under the required disclosures as information and documentation becomes available, including when the plaintiff receives new exposure history information or becomes aware that a prior disclosure was inaccurate or incomplete.⁴ The plaintiff cannot commence discovery against a defendant in a tort action alleging an asbestos claim until the defendant's product or premises is specifically identified in the disclosures.⁵

² R.C. 2307.931(B).

³ R.C. 2307.931(A).

⁴ R.C. 2307.931(C).

⁵ R.C. 2307.931(D).

A defendant whose product or premises is not specifically identified in the required disclosures, or who believes that plaintiff's disclosures fail to comply with the requirements listed above, may file a motion with the court to administratively dismiss the asbestos claim against that defendant. The plaintiff has 30 days from the date of filing of the defendant's motion to file disclosures that comply with the requirements listed above or otherwise respond to the defendant's motion.⁶ If the plaintiff fails to comply with the required disclosures, the court, on a motion by a defendant, must administratively dismiss the asbestos claim against the defendant who filed the motion, or as to all defendants, as applicable.⁷ A claim that is administratively dismissed is dismissed other than upon the merits for the purpose of saving in case of reversal.⁸

Application of bill's provisions

The bill applies to asbestos claims filed on or after the effective date of the bill.⁹ The bill does not apply to a claim for workers' compensation or a claim for veterans' benefits.¹⁰
