## Fiscal Note & Local Impact Statement

---

**Bill:** H.B. 195 of the 131st G.A. **Date:** June 25, 2015  
**Status:** As Reported by House Transportation and Infrastructure **Sponsor:** Rep. Grossman

**Local Impact Statement Procedure Required:** No

**Contents:** "Dream Field" license plate

### State Fiscal Highlights

- Annually, license plate production costs will total up to \$3,185 or more and the related administrative fees collected will total up to \$5,000 or more. The administrative fees will be deposited in the existing State Bureau of Motor Vehicles Fund (Fund 4W40), which the Bureau of Motor Vehicles uses to defray the cost of manufacturing and distributing license plates and stickers, and to cover the cost of motor vehicle registration.
- A minimum of \$7,500 may be generated annually for distribution to the Grove City Little League Board.

### Local Fiscal Highlights

- No direct fiscal effect on political subdivisions.

---

### Detailed Fiscal Analysis

The bill creates the "Dream Field" license plate and requires a person obtaining the plate pay both of the following: (1) a \$15 contribution that the Registrar of Motor Vehicles is required to pay to the Grove City Little League Board, and (2) a \$10 Bureau of Motor Vehicles (BMV) administrative fee.

#### State fiscal effects

##### Bureau of Motor Vehicles

The BMV currently produces special license plates via a digital print-on-demand process. The total cost to produce a pair of these plates is \$6.37. Under the bill, a person obtaining the "Dream Field" license plate must pay an administrative fee of \$10, the purpose of which is to compensate the BMV for additional services required in issuing the plate. Assuming, as described in the paragraph immediately below, the plate meets

the minimum registration requirement of 500 persons, then annually plate production costs will total at least \$3,185 (500 persons x \$6.37) and the administrative fees collected will total at least \$5,000 (500 persons x \$10). The fee will be deposited in the existing State Bureau of Motor Vehicles Fund (Fund 4W40), which the BMV uses to defray the cost of manufacturing and distributing license plates and stickers, and to cover the cost of motor vehicle registration.

Under existing law, the "Dream Field" license plate will be subject to the minimum registration requirement generally applicable to special license plates and to termination and revival procedures. For example, the BMV Registrar is not required to implement any legislation that creates a new license plate until the Registrar receives written statements from at least 500 persons indicating that they intend to apply for and obtain the special license plate (R.C. 4503.78). If, during any calendar year, the total number of new and renewal motor vehicle registrations involving such a nonstandard license plate totals less than 500, the issuance of that license plate may cease as of December 31 of the following year.

### **License Plate Contribution Fund**

The \$15 contribution paid for the issuance of the "Dream Field" license plate will be deposited into the existing License Plate Contribution Fund (Fund 5V10) and then paid to the Grove City Little League Board. Assuming, as described above, the plate meets the minimum registration requirement of 500 persons, then the total amount contributed annually will be at least \$7,500 (500 persons x \$15). The Grove City Little League Board is required to use those contributions solely to build, maintain, and improve youth baseball fields within the municipal corporation of Grove City.

## **Local fiscal effects**

### **Redistributed BMV revenues**

The bill does not have a direct fiscal effect on political subdivisions of the state. However, whenever the cash flow of Fund 4W40 changes, local governments may be indirectly affected. Monthly, an assessment of Fund 4W40 occurs and excess cash not needed for BMV's monthly operating expenses is transferred to the state's Auto Registration Distribution Fund (Fund 7051). Cash in Fund 7051 is distributed to local governments (counties, municipalities, and townships) to use for transportation-related needs such as roads and bridges. As BMV's expenses or revenue sources increase or decrease, money available for redistribution to local governments may increase or decrease accordingly. Thus, if the BMV's costs to produce and distribute license plates increases, there may be less cash available for distribution back to certain local governments via Fund 7051.
